OMSCHRIJVING

Vitamin Zone

Preserve fruits and vegetables for a longer time

VitaminZone technology activates the natural life mechanisms of the plant by simulating the natural daylight cycle. In this way, metabolic activities such as photosynthesis continue and the vitamin values of fruits and vegetables are preserved for a longer time.

ComfortFit

It's aesthetic as well as functional

A modern kitchen design involves aesthetic and functional essentials. Grundig Comfort Fit technology provides that when the refrigerator door is opened to 90 degrees, it will not exceed the panel. Thanks to this smart feature, you can place your refrigerator in the corners of your kitchen and open the door easily.

SuperFresh

Keep your meat&fish fresher

Grundig's SuperFresh zone is designed to keep food at a lower temperature. This zone keeps food chilled between two and three degrees cooler than the rest of the fridge, creating the perfect temperature for the products. By maintaining the temperature just above freezing point, humidity is kept at an optimum level.

Led Illumination

Eco-friendly way to Illumination: Led Lights

The white LED lights provide efficient and cleaner lighting with a more aesthetic look inside your fridge. Also, LED refrigerator lights use significantly lower amounts of energy and release less heat compared to customary refrigerator lighting.

SPECIFICATIE

Algemeen

Totale netto inhoud	365 Liter
Type koelkast	Eéndeurskoelkast zonder vriesvak
Vriesgedeelte	

Fysieke kenmerken

Breedte	59.7 cm
Diepte	70.9 cm
Hoogte	186.5 cm
Ingebouwde LED verlichting	

Energieverbruik

Energieklasse	E
Geluidsniveau	35 dB(A)
Geluidsniveau-klasse	B
Jaarlijks elektrisch verbruik	143 kWh

Koelen

Totale netto inhoud koelkast	365 Liter
